

Opportunity to become a GP with an extended role in Ophthalmology

Are you interested in a portfolio career as a GP specialising in Ophthalmology?

Energise your GP career by having a portfolio specialty in something completely different to General practice. We are looking for an enthusiastic GP to join our multidisciplinary team.

We are offering 6 months “in house” paid training with our GPwER and Consultant at our Community Eye Clinic in Southampton. The training can be tailored dependant on the time commitment you are able to offer.

We will train you on how to proficiently use the slit lamp and equip you with the skills and knowledge base you need to see and manage patients with a wide range of Ophthalmological problems including Cataracts, Glaucoma, Vitreo-retinal and Macular problems.

We are offering a competitive salary and benefit package along with the opportunity to train and work with a supportive and skilled team.

If interested please contact Wendy Bailey on email w.bailey@nhs.net or by phone on 07398 386632
